Listing and Amendments to the Claims

Please rewrite claims 1 and 5 as indicated.

1. (Currently Amended) A cabinet for an electronic device equipped with a loudspeaker for audio reproduction wherein said cabinet comprises a first cabinet for housing electrical and mechanical components of the electronic device and having a first wall and a second wall, characterized in that the first cabinet has a confining area for connecting the first wall and the second wall and for accommodating a separate second cabinet for said loudspeaker, wherein a sidewall of the second cabinet is formed to follow the shape of the confining area, and wherein the second cabinet is connected to the first cabinet in a non-detachable manner.
2. (Previously Presented) The cabinet according to claim 1 characterized in that a vibration damping means is arranged between the first cabinet and the second cabinet.
3. (Previously Presented) The cabinet according to claim 1 characterized in that inside the second cabinet, electronic circuitry is arranged.
4. (Previously Presented) The cabinet according to claim 1 characterized in that the first cabinet is provided with urging means pressing the second cabinet against the first cabinet.
5. (Currently Amended) The cabinet according to claim 4 characterized in that said urging means are arranged such that the second cabinet is pressed against the a vibration damping means.

Serial No.: 09/836,637

PA000007

6. (Previously Presented) The cabinet according to claim 1, characterized in that the confining area of the first cabinet has substantially no openings.

7. (Previously Presented) The cabinet according to claim 1, characterized in that the first cabinet has protrusions at least partly surrounding the confining area for accommodating the second cabinet and vibration damping means.
